

How to Create Powerapps Gallery With Pagination

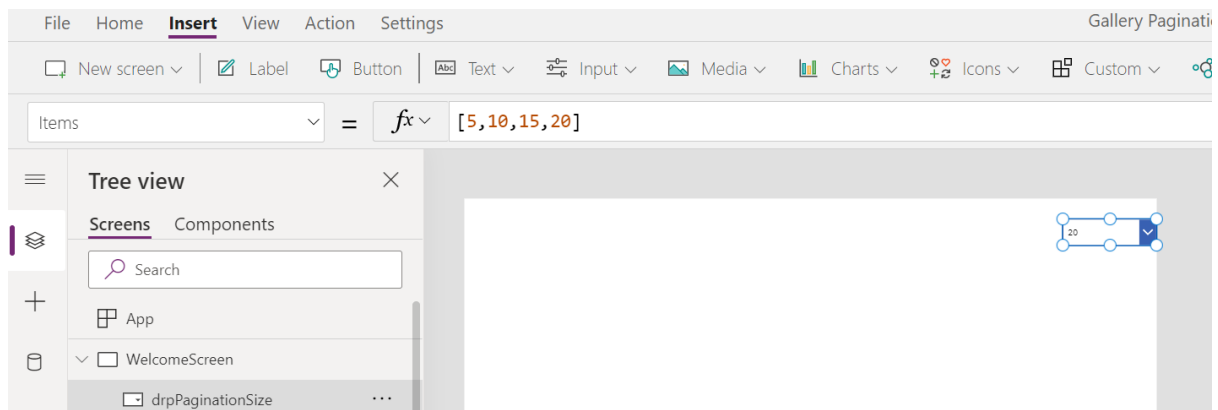

1. Add a Gallery (Gallery Name : galHidden)

2. Set Visible Property for galHidden = false

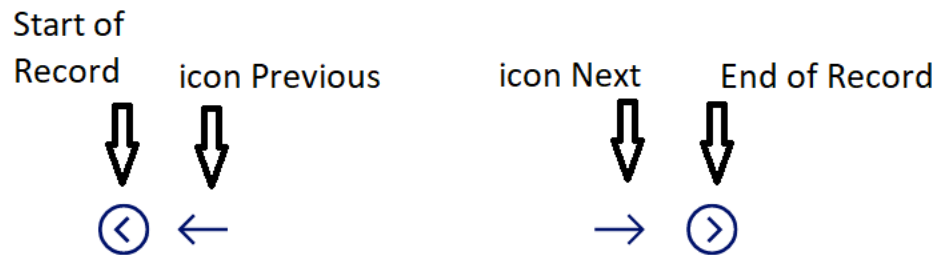

3. Create a New Dropdown by selecting Input → Drop Down

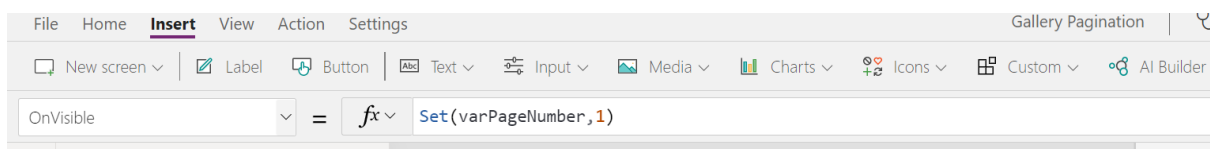

4. Items for Dropdown [5,10,15,20] (Note: Make Sure its Number)

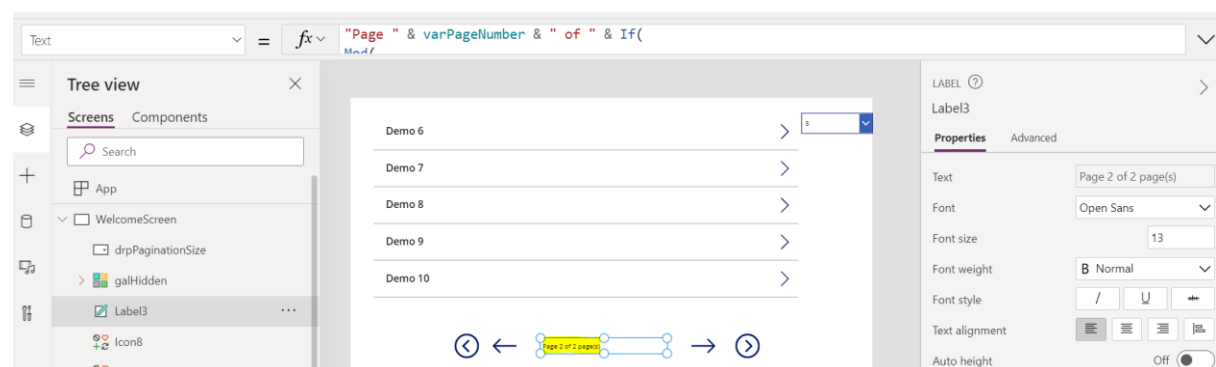

5. Add Four Icon Based on below snapshot

6. On select of (Start of Record) (ICON With round)
 - a. Onselect = Set(varPageNumber,1)
 - b. Display Mode = If(varPageNumber=1, Disabled,DisplayMode.Edit)
7. On select of (icon Previous)(ICON without round)
 - a. Onselect = Set(varPageNumber,varPageNumber-1)
 - b. Display Mode = If(varPageNumber=1, Disabled,DisplayMode.Edit)
8. On Select of (icon Next)(ICON without round)
 - a. Onselect = Set(varPageNumber,varPageNumber+1)
 - b. Display Mode= If(drpPaginationSize.Selected.Value*varPageNumber<=CountRows(galHidden.AllItems),Edit,Disabled)
9. On Select of (icon End of Record)(ICON With round)
 - a. OnSelect = Set(varPageNumber, RoundUp(CountRows(galHidden.AllItems) / drpPaginationSize.SelectedText.Value ,0))
 - b. Display Mode= If(drpPaginationSize.Selected.Value*varPageNumber<=CountRows(galHidden.AllItems),Edit,Disabled)
10. On Page Load OnVisible
 - a. OnVisible = Set(varPageNumber,1)

11. Add Label between two icons

- a. Text = "Page "&varPageNumber&" of
 "&If(Mod(CountRows(galHidden.AllItems),100)=0,RoundUp(CountRows(galHidden.AllItems)/drpPaginationSize.SelectedText.Value,0)&" +
 pages",RoundUp(CountRows(galHidden.AllItems)/drpPaginationSize.SelectedText.Value,0)&" page(s)")
12. Add a new Gallery (Name : galMain)
 - a. Items : If(icoNext.DisplayMode=Disabled,
 LastN(FirstN(galHidden.AllItems,drpPaginationSize.Selected.Value*varPageNumber),
 drpPaginationSize.Selected.Value-
 (drpPaginationSize.Selected.Value*varPageNumber-
 CountRows(galHidden.AllItems))),LastN(FirstN(galHidden.AllItems,drpPaginationSize
 .Selected.Value*varPageNumber),drpPaginationSize.Selected.Value))
